

DUNCAN & TOPLIS

Specialist
accountants to
the Agricultural
sector

We have close links with the farming community, giving us a special insight into the various challenges as well as the solutions.

We have the best software for cloud accounting and have partnered with Xero, Farmplan and Landmark Systems.

A close-up photograph of several golden wheat stalks, slightly out of focus, creating a warm, textured background. The stalks are arranged vertically, with some in sharp focus in the foreground and others blurred in the background.

We want to talk about the future of your agricultural business

Working the land is rewarding but it can also be a challenge, with unpredictable weather and volatile commodity prices.

We have over 80 years' experience of working within the rural economy, which is why we are considered to be one of the leading agricultural accountants in the UK.

We have acted for several generations assisting them with advice on succession planning, diversification and asset protection. We are also able to provide personal finance and pension advice along with Payroll, HR and IT services.

Our specialist team have in-depth knowledge and personal experience of the farming industry and can provide the expert advice that is required to help you enhance the potential of your farming business.

We support you all year with tax planning that considers the life cycle of your crops, the depreciation of your machinery and the day-to-day business operations of farm management.

How can we help?

Our team is able to provide specialist advice

- Grants
- Forward planning
- Joint venture and diversification projects
- Contract farming
- Succession planning
- Liaising with banks
- Optimising trading structures
- Tax planning for all forms of business
- Stocktake valuation
- Value added tax (VAT)
- Bookkeeping, HR and Payroll

We understand the inherent level of complexity of agribusiness tax situations and have experience in interpreting and applying rules and knowledge that goes beyond simply filling out forms and getting the compliance work done.
